Alphacool International GmbH, Marienberger Strasse 1, 38122 Braunschweig Tel: (+49)0531 288 740 Supportmail: info@alphacool.com

Compatibility

This adapter has a rotatable 1/4" external screw thread on one side and a 1/4" internal thread on the other side. This 45° angle connector is mostly useful in cases where 1/4" threads are too close to one another and larger hose connections do not fit next to each other.

Technical details

Material	Brass
Colour	White
Length	35 mm
Diameter	18 mm
Thread length	5 mm
Thread	G1/4"
Weight	34 g

Scope of delivery

1x Alphacool Eiszapfen angled adaptor 45° rotatable G1/4 outer thread to G1/4 inner thread, White

Article text

Alphacool's Eiszapfen is the high-end version of the already proven connectors and meets all the requirements placed on a connector with its high-flow, shape, processing and colour.

This adapter has a rotatable ¼" external screw thread on one side and a ¼" internal thread on the other side. This 45° angle connector is mostly useful in cases where ¼" threads are too close to one another and larger hose connections do not fit next to each other.

With brilliant chrome, deep matt black and decent matt white, three colour variants are available that fit perfectly into any system. Thanks to special processes, the coatings are firmly bonded to the substrate. This ensures a high longevity of the colours and prevents the coating from flaking off. The connector now also has the Alphacool logo, which makes it unique in addition to its special shape!
